Response to Arguments

Applicant's arguments filed 03/17/09 have been fully considered but they are not persuasive. The response and the Declaration submitted by Applicant do not overcome the rejection made by examiner in the last office action and for the following reasons:

Claim 9 is rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the acid component is an aromatic tetracarboxylic acid dianhydride of the claimed formula (I), does not reasonably provide enablement for at least 30 mole%. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/use the invention commensurate in scope with these claims.

Applicant's arguments are based on the required molar ratio of said component (at least 30 mol%). However, Applicant agrees that the cited references do disclose said component as an optional component. That means said component can be present in the composition of the reference but the molar ratio is not defined.

The Declarations have been fully considered but they are not persuasive since they are not commensurate in scope with the claims in that the claims require at least 30 mol% to have the claimed characteristics.

Claims 9,11-13 and 15-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Chem Abstracts 136: 7165 or 136: 7164 or 136: 7161 or 136: 7160 or 136: 7159 for the reasons as stated in the last office action.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 1796

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.
